### 3. Support materials

Please check which materials you have included:

- Image of the Architectural Source (required for all entries)
  - Image of the finished piece. (required for entries that are already constructed)
  - Image of the work in progress (required for entries that are in construction – you should also include a dimensional sketch or computer rendering to help the jury understand how the finished piece will look)
  - Dimensional sketch of the entry (first of two options for entries that have not yet been fabricated)
- OR
- Digital rendering of the entry (second of two options for entries that have not yet been fabricated)
  - An image of another piece you have already completed (required except for entries of finished work)
  - Please check here if you already have high resolution digital images or good quality photographs of your entry piece. If so, we may ask to use these in the initial publicity materials for the show.
